

## Orwell Maths Trail

- 1. Town Green Road Bus Stop** – Look at the timetable. Calculate the difference in time between the first bus and last bus arriving.
- 2. The Chequers** – Can you write and solve a mathematical question about The Chequers Public House?
- 3. Orwell Methodist Church** – What would be a quick and effective way of estimating the number of small glass panes used to create the large window?
- 4. Post Office** – Look at the Post Office front and observe any angles, can you draw and name them?
- 5. Cars** – Look at the number plates of two cars and add up the digits.
- 6. Town Green Road** – Looking down Town Green Road, what fraction of the homes are bungalows?

### Extra Challenge:

On your trail, make a list of all the 2-D and 3-D shapes you can see.
