

Good morning,

Due to an unforeseen water issue, school is closed at the moment. Here are some tasks your child can do at home today:

- Mathematics – tasks from last week are due today. Additional assignments have been added for today to complement previous and upcoming units.
- Edshed – this week's spellings are online. If your child is confident with these words, please complete the year 3/4 spelling list activities.
- Homework projects – if your child has not already completed a project this term, please select a project from the homework menu on the class web page.
- English – our next unit will involve writing a poem about something we can see out of the window. In preparation, gather some vocabulary about what sights, smells and sounds there are outside of your window e.g. the whisper of the trees, the thunderous clouds etc.
